

Seeing Science TV-ROMs

These fantastic software titles bring Science to life through a carefully selected collection of TV clips, quizzes, worksheets and activities.

Site licensed for use throughout an entire purchasing establishment, each TV-ROM is divided into clear topic sections, each with a collection of downloadable worksheets and resources, (in pdf format,) reference articles and a bank of TV clips of experiments, demonstrations and illustrated explanations of key concepts.

Also included is a handy glossary, to which all the terms used in each reference article are linked, providing quickly accessible definitions and explanations.

Ideal for use on an Interactive Whiteboard, the Seeing Science TV-ROMs give teachers a comprehensive topic resource from which to excite and engage their students, whilst delivering the key concepts and developing their understanding of the topic in hand.

TV-ROM Primary Site License
£100 each (exc. VAT)

Notes to the Editor

Hands On is part of the Commotion Group, specialising in distributing innovative educational products to pre-schools, schools, universities, trade suppliers and private customers.

The company has several catalogues segregated by brand; Reflections on Learning, Hands On and Commotion Solutions for Education, focusing respectively on pre-school, primary (key stage 1 & 2) and secondary (keys stage 3 &4) levels of education.

All products contained within the Commotion Group catalogues are carefully selected by our team of Catalogue Consultants-teachers whom are fully conversant with all aspects of the National Curriculum.
